CONGRESSIONAL OUTLOOK. The coming session of congress is of the most vital importance for several reasons. This is the first time since 1884 that the Republicans have had a majority in the lower house, and then only for one session. Since 1876, with this one exception, the Democrats have controlled what may be termed the legislative branch of the congress of the United States, and have, in almost every instance, effectually killed every measure which passed the Republican senate. By pursuing a policy of false economy the Democratic party has retarded public improvements in every portion of the country, and heaped up a surplus in the treasury to be used as an argument for a change in the economic policy of the country. This party has preferred keeping the revenue locked in the treasury rather than sending it in the channels of trade, relieving the pressure of hard times and helping the laboring classes. A very reasonable measure passed the senate for the forfeiture of the unearned land grant of the Northern Pacific, and this was killed by the Democratic lower house by tacking on amendments. All sorts of ill-conceived legislation have been passed by the Democratic house. which has had the effect to unsettle business and intimidate capital from investment. The last election gave evidence that the people demanded a change in the public administration of affairs. Four years of a Democratic executive, coupled with the obstructive policy of the lower house, created a general dissatisfaction over the country. The lower house and senate now

have a good working majority of Republicans, and the people are anxiously watching the coming session to see in this age of mitrailleuse whether they will be true to their and repeating rifles physical pledges to the people. The senate strength counts little in milibill which passed that body last year, tary conflicts. As civilization adand was killed in the house, will vances, the brutal passions decreases perhaps be the policy of the party on or are more subservient to the higher the tariff question. This, it is pre- feelings and a greater sympathy is sumed, will satisfy the desires of the felt for human woes and human sufpeople much better than the Mills ferings, and less delight is taken bill, and will be all the legislation in exhibitions of savage bravery. With with those of the animal. three members from Oregon, congress paid little attention to its request of wants: but when in December it marshalls its forces of six senators and three representatives-not counting the two Dakotas-its voice will not be unheeded. The producers of this portion of the country have been sup plicants for many favors, and, although the members from Oregon have worked honestly and earnestly, little has been accomplished. The great artery of commerce, the Columbia river, has been locked to the commerce of the pecple by a railroad monopoly, and paltry sums have been dealt out for improvements which has advanced the work very slowly. The northwest expects the Republican party, which has been the friend of internal public improvements for many years, to be liberal in its appropriations towards the Columbia river. It is of the greatest importance that the locks at the Cascades should be completed at the earliest possible time, and that no unnecessary delay should be had. A region of country, large in extent and rich in natural resources, is dependent upon this river as an outlet to seaboard, and it is not in accordance with the people's wishes that the public treasury should overflow with hoarded wealth while they are but that the candidates of the "old forced to the verge of bankruptcy by party" have met with crushing defeat. excessive railroad freights. The jetties at the mouth of the Columbia should be carried forward to complefor this purpose should be liberal. to a better advantage and relief will come quicker. Aside from thes improvements, which have been in progress for a number of years, it may be overcoming the obstructions to navigation between this city and Celilo. The report of the engineers who have examined boat-railways in Europe will be received, and this, we understand, will be favorable to the undertaking. It makes little difference what plan may be adopted, so that active work be commenced to remove these obstructions to an open river, which, with the completion of the locks at the Cascades, will give producers and shippers a free highway to the dan. The impediment to the railroad land forfeiture bill is removed by the change in the political predilecof the lower house, and Senator Dolph's bill, which is all the people

ing both houses of congress. The Republicans have an opportunity of winning lasting glory for the parent trunk which originated and themselves by much needed legislation. and it is hoped they will not let the opportunity go by unimproved. The party has been the savior of the nation in more than one instance in the past, and we believe it will still reling, as the people are not desirous of main true to its former traditions and elevating to the executive a man well-earned reputation.

Public opinion does not seem to be as pronounced in favor of the other who will wear the togo from Washington, but Judges Turner, Hoyt and others are favorably mentioned, either of whom would be very acceptable to the people of the

During the candidacy of Hon. T L Stiles for supreme judge of Washington charges were pending against him at Tucson, Arizona. As soon as west, and while these have furnished the election was over Judge Stiles rehomes for our industrious population paired to Arizona to face his accusers.

The proposition of Gov. Pennoyer to build a standard-gauge railroad around the obstructions between this city and Celilo would not have met with such opposition if the board of engineers had not already been impressed with the idea of a boat railway. This new scheme will cause discussion, and may postpone any appropriations for the work for several years. The residents in the Columbia eiver basin in Washington and Oregon earnestly desire the impediments to navigation removed in the great river obstacle being thrown in the way of this being speedily accomplished.

Gibbs, the murderer, is still at large although every executive officer in the northwest has hunted high or low for him. It may appear strange that a man could commit such a crime and escape, but this is a large country, and one can very effectually hide himself and even elude the most careful search. It is to be hoped that Gibbs will be caught and will suffer the nunishment his crime merits.

"The Republican policy of war tariff is breaking down," exultingly exclaims a Democratic cotemporary. If the The Democratic Roseburg Reveiw is vote cast for President Harrison last opening the campaign early, and its year in Oregon was any indication of

The Cronin trial is progressing very ing the men arrested for the crime or of tracing it to the Clan-na-Gael. We

cannot foretell what evidence may yet be brought forward, but so far there is not sufficient to convince any reasonable man that Dr. Cronin was killed by the persons under indictment, or that the animus proceeded from the secret society named. There can be nd commercial and manufacturing no doubt that Dr. Cronin was brutally assassinated, and that some motive existed for the perpetration of this diabolical act; but the fear of punishment and the pledge of secreey have effectually sealed the lips of all those con nected with it, and the darkness of the night and the sewer hole have obliterated what might have been under other circumstances indisputable links in the chain of circumstantial evidence.

Chicago is the best illustration the result of business pluck and enterprise. Devoured by the flames in 1871, she has sprung out of the ashes in a lovelier and brighter form than before, and in a few years will be a rival of New York for the me-Montana politics are in a teraible tropolis of the western hemisphere. muddle.
